

SPONSORSHIP PROSPECTUS

ABOUT OWLHACKS

OwlHacks is Temple University's annual, student-organized hackathon. First hosted in 2019, we welcomed over 200 students from Temple University and regional schools for 12 hours. With such great projects, turnout, and support from our sponsors and university, OwlHacks 2022 is going further. This year, the event will span 24 hours, welcome over 50 more students than the previous year, and involve countless student organizations.

At OwlHacks, students from all over the region and from within Temple University meet to create together. With free food, workshops, panels, games, swag and more, OwlHacks is a fun and educational experience for all levels of technical proficiency. From freshman to seniors, and undergrads to grads, all are welcome at OwlHacks.
