

SPONSORSHIP PROSPECTUS

ABOUT OWLHACKS

OwlHacks is Temple University's annual, student-organized hackathon. First hosted in 2019, we welcomed over 200 students from Temple University and regional colleges and universities for 24 hours of technology engagement. With great projects, highly engaged students, and support from our sponsors and university, OwlHacks 2023 will be soaring to new heights. This year, the event will return to in person, welcoming more students, and involving numerous student organizations.

To do this we need YOUR help!

At OwlHacks, college students from all over the region and from within Temple University will meet to create together. With free food, workshops, technology panels, professional development, games, swag and more OwlHacks 2023 will be a fun and educational experience for all levels of technical proficiency. From freshman to seniors, and undergrads to grads, all are welcome at OwlHacks.
